PHARMACY PRESCRIPTIONS

The Washington State Department of Labor and Industries (L&I) and self-insured employers (SIEs) are responsible for the cost of medically necessary services associated with an accepted industrial injury or occupational disease. No copayments or deductibles are required from injured workers.

Rules for reimbursement and billing of pharmacy prescriptions are explained in L&I’s Medical Aid Rules and Fee Schedules, WAC chapter 296-20-170.

COVERAGE POLICY

Bills must be received by the insurer within 1 year of the date a prescription was filled. ([WAC 296-20-17002](https://apps.leg.wa.gov/wac/?id=WAC%20296-20-17002)).

Prescription medications are priced according to the quantity dispensed. L & I’s bill payment system and SIEs use the National Council for Prescription Drug Program (NCPDP) units of measurement:

- Caplets, tablets, and capsules are priced per each
- Liquids are priced per gram or milliliter
- Ointments and creams are priced per gram
- Injectables that come in powder form are priced per vial or ampule

L&I’s [Outpatient Drug Formulary](https://www.Lni.wa.gov/ClaimsIns/Files/Providers/DrugFormulary.pdf) can be found at:

Payment for drugs and medications including all oral non-legend drugs will be based on the pricing methodology described below. Refer to [WAC 296-20-01002](https://apps.leg.wa.gov/wac/?id=WAC%20296-20-01002) for definitions of Average Wholesale Price (AWP).

Orders for over-the-counter non oral drugs or nondrug items must be written on standard prescription forms. Price these on a 40% margin.

Prescription drugs and oral or topical over-the-counter medications are nontaxable ([RCW 82.08.0281](https://apps.leg.wa.gov/rcw/?id=82.08.0281)).
What medications will L&I and self-insurers pay for?
L&I and self-insurers pay for medications that are necessary to treat the accepted industrial injury or occupational disease on an allowed claim (WAC 296-20-03010). L&I or self-insurers may also temporarily pay for drugs to treat unrelated conditions that are retarding recovery (WAC 296-20-03011). Temporary treatment of an unrelated condition may be allowed, upon prior approval by L&I or the self-insurer (WAC 296-20-055).

How are drugs in the outpatient formulary classified?

Drugs are listed in the following categories:
- Allowed – Used to treat industrial injuries or occupational diseases, including those on the Preferred Drug List (PDL).
- Prior authorization required – Sometimes used to treat industrial injuries and occupational diseases or unrelated conditions retarding recovery. This also applies to non-preferred drugs prescribed by non-endorseing practitioners or non-formulary drugs.
- Denied – Rarely or never used to treat industrial injuries or occupational diseases or drugs not normally dispensed by outpatient pharmacies.

About the formulary:
- This is an outpatient formulary. Many of the drugs not included on the formulary may be covered when billed appropriately for use in other settings such as:
  - Inpatient
  - Outpatient surgery
  - Emergency room
  - Clinics or offices.
- Drugs listed on the formulary do not guarantee coverage and may be subject to L&I’s policy and appropriateness for the accepted conditions.
- Drugs that are included in the Washington State’s evidence-based PDL may be subject to the provisions of the Therapeutic Interchange Program (TIP).

Please refer to L&I’s outpatient formulary at www.Lni.wa.gov/ClaimsIns/Files/Providers/DrugFormulary.pdf (Medical Aid Rules and Fee Schedules Appendix F) to determine a drug’s coverage status.

What drug classes are included in the Washington State PDL?
L&I uses a subset of the Washington State PDL that has been selected as “preferred” for workers’ comp benefits. This list is based on the results of an evidence based review process.

How can a provider become an endorsing practitioner?

Providers can endorse the PDL by:
- Registering online at http://www.rx.wa.gov/tip.html or
- Filling out and returning a registration form available at http://www.rx.wa.gov/tip.html
Does a provider have to be an endorsing practitioner?
No. However, if a provider is a non-endorsing practitioner and prescribes a non-preferred drug, the non-preferred drug will require prior authorization. If a provider is an endorsing practitioner and prescribes a non-preferred drug and:

- Substitution is permitted, a preferred drug will be dispensed or
- Dispense as written is noted, the non-preferred drug will be dispensed.

How does ‘Endorsing Practitioner’ and ‘Therapeutic Interchange Program (TIP)’ work?
Drugs subject to provisions of TIP are those that have been evaluated by the Washington State Pharmacy & Therapeutics Committee as part of an evidence-based review process and placed on the PDL.

Endorsing practitioners may indicate dispense as written (DAW) on a prescription for a non-preferred drug on the PDL and the prescription will be filled as written. Alternatively, if an endorsing practitioner indicates substitution permitted on a prescription for a non-preferred drug on the PDL, the pharmacist will interchange a preferred drug for the non-preferred drug and a notification will be sent to the prescriber.

Therapeutic interchange won’t occur when the prescription is a refill of an antipsychotic, antidepressant, chemotherapy, antiretroviral, or immunosuppressive drug as exempted by law. See WAC 296-20-01002 for definitions relating to the Therapeutic Interchange Program:

- Endorsing practitioner
- Refill
- Therapeutic alternative
- Therapeutic interchange

Due to federal regulations, therapeutic interchange will not take place when the prescription is for a schedule II non-preferred drug. Pharmacists will need a new prescription for the preferred drug. However, the insurer will honor the prescription if an endorsing practitioner indicates DAW for a schedule II non-preferred drug.

Exception: Fentanyl patch (Duragesic) won’t be routinely covered. For exception criteria see http://www.lni.wa.gov/ClaimsIns/Providers/TreatingPatients/Presc/Policy/SpecCovDec/Fentanyl.asp

How will a pharmacist know when to therapeutically interchange a prescription?
During bill transmission, L&I’s Point of Sale (POS) system will use the Prescriber ID and Qualifier fields to identify a provider’s endorsement status. When the POS system identifies a non-preferred drug written by an “endorsing practitioner” and substitution is permitted, the pharmacy will receive:

- A NCPDP reject code 70 (product not covered) and
- Secondary message, “TIP Preferred:” will notify the pharmacist that a therapeutic interchange is needed.

However, if the non-preferred drug is written by a “non-endorsing practitioner”, the pharmacy will receive:

- A NCPDP reject code 70 (product not covered) and
- Secondary message, “Alternatives:” will notify the pharmacist that a new prescription for the preferred drug is needed.

A list of preferred drug(s) will be included with either message.
What billing transactions are associated with TIP?
When an endorsing practitioner indicates DAW on the prescription for a non-preferred drug, the pharmacist must enter a value of one (1) in the DAW field.

What number should be in the Prescriber ID field?
L&I’s POS system accepts the following in the prescriber ID field using the NCPDP 5.1 format:
- A prescriber’s
  - Washington State license number
  - DEA number
  - L&I provider account number or
  - National Provider Identifier (NPI)

Pharmacies must enter the Prescriber ID Qualifier associated with the Prescriber ID number used (see NCPDP 5.1 format for valid values). L&I will validate the Prescriber ID field for providers with prescriptive authority.

For a prescriber without a L&I provider account number, the pharmacy must enter the prescriber’s Washington State license number in the Prescriber ID field and 08 in the Prescriber ID Qualifier field in order for L&I to identify his or her PDL endorsement status.

How can providers obtain authorization from the State Fund?
- PDL or First Fills Requests:
  - Call the PDL Hotline at 1-888-443-6798 or (360) 902-4321 Monday through Friday from 8:00 a.m. to 5:00 p.m.
  - If a pharmacy receives a prescription for a non-preferred drug after normal business hours, during weekends, or Washington State holidays when authorization cannot be obtained, pharmacist may:
    - Dispense an emergency supply of the drug by entering a value of six (6) in the DAW field and request authorization the next business day. Note: an emergency supply is typically 72 hours for most drugs or up to 10 days for most antibiotics, depending on the pharmacist’s judgment.
    - Dispense the drug under the worker's primary insurance or straight cash transaction and request authorization the next business day.

- Other Requests:
  - Call the Provider Hotline (PHL) at 1-800-848-0811 Monday through Friday from 8:00 a.m. to 5:00 p.m.

How can providers obtain authorization from SIEs?
Contact the SIE or their Third Party Administrator (TPA), directly. For a list of SIE/TPAs go to:

What information should a pharmacist have before calling for authorization?
- Injured worker’s claim number
- Pharmacy’s L&I provider account number or prescriber’s L&I provider account number or license #
- Drug name and National Drug Code (NDC)
- Condition the drug will be used to treat
Will L&I pay for initial prescription drugs on a new State Fund workers’ compensation claim or “first fills”?  

Yes, L&I will pay pharmacies or reimburse workers for prescription drugs prescribed during the initial visit for State Fund claims regardless of claim acceptance (WAC 296-20-17004). Refer to WAC 296-20-01002 for definitions of initial prescription drug and initial visit.

Payment for “first fills” shall be based on L&I’s fee schedule including but not limited to screening for drug utilization review (DUR) criteria, preferred drug list (PDL) provisions, 30-day supply limit and formulary status. Your bill must be received by L&I within 1 year of the date of service. For additional information and billing instructions, go to: http://www.Lni.wa.gov/ClaimsIns/Providers/TreatingPatients/Presc/Billing/default.asp#3

L&I will not pay:
- For refills of the initial prescription before the claim is accepted,
- For new prescriptions written after the initial visit but before the claim is accepted or
- If it is a federal or self-insured claim.

Pharmacies should bill the appropriate federal or self-insured employer.

NOTE: If a payment is made by L&I on a claim that has been mistakenly filed as a SF claim, payment will be recovered. Pharmacies should bill the appropriate federal or self-insured employer.

What is the process for billing “first fills”?  

For new claims filed online:
The pharmacists must see a copy of the Report of Industrial Injury or Occupational Disease (Report of Accident or ROA) to obtain a valid SF claim number for billing and validation. The worker can also inform the pharmacist of the new claim number but the pharmacist must validate the claim through the department’s claim information line (IVR) at 800-831-5227.

For new claims filed on paper:
The pharmacists must see a copy of the Report of Industrial Injury or Occupational Disease or claim ID card (see Appendix B Example of the ROA and claim ID card) to obtain a valid SF claim number for billing.

When pharmacies bill L&I and the prescription meets criteria for guaranteed payment, the POS system will send reject code 52 or 67 with the following information:
- Maximum allowable amount: $$.$$
- Prescription qualifies for first fill; submit prior authorization number 46484254557 after verifying claim number from report of accident or claim ID card.

NOTE: Pharmacies must make sure to submit a valid prior authorization qualifier, 08, along with the authorization number.
All pharmacy bills will be screened for DUR criteria, preferred drug list (PDL) provisions, 30-day supply limit and formulary status. Rejections associated with these screenings must be addressed by the pharmacist before bill will be payable (see Will pharmacists be able to override DUR edits? and what drug classes are included in the Washington State PDL? and How does the Therapeutic Interchange Program work?).

**Refill(s) and/or additional prescriptions dispensed for original injury before claim acceptance:**
- You may charge the injured worker for the prescription and submit the bill with the amount paid in the patient paid amount or copay field. L&I will capture the bill and reimburse the injured worker if and when the claim is allowed.
- You may submit a paper bill. L&I will suspend the bill and reimburse you when the claim is allowed.
- You may wait until the claim is allowed and then submit it through the POS system.

**What drug utilization review (DUR) and other administrative edits does L&I screen for?**
L&I is currently using the clinical modules from First Data-Bank to screen for the following on all pharmacy bills:
- Potential high dose
- Therapeutic duplication
- Level 1 drug-to-drug interactions.

When DUR conditions exist, pharmacy bills will be denied with rejection code 88. Also, L&I concurrently screens pharmacy bills for early refills to deter over utilization or excess of any particular drug and will deny bills meeting this criteria with rejection code 79.

**Will pharmacists be able to override DUR edits?**
Yes. After the dispensing pharmacist has conducted a professional review, the appropriate NCPDP DUR conflict, intervention, and outcome codes may be used to override the denials if it is medically appropriate. By overriding a DUR denial, the pharmacist is certifying that the indicated DUR override code is true and documentation is on file.

To override a DUR rejection code, the pharmacist should enter one appropriate DUR code from each category in the following order:
1. Two byte alpha DUR Conflict Code
2. Two byte alphanumeric DUR Intervention Code, and
3. Two byte alphanumeric DUR Outcome Code.

An example of a valid override is DDM01G (Drug-drug interaction/MD interface/Filled after prescriber approval). See Appendix A for the complete list of DUR codes.

If a pharmacist identifies a DUR condition before submitting a bill and an override is warranted, then he/she may enter the appropriate DUR codes with initial billing without waiting for a DUR denial from L&I. Additionally, when a bill is denied for multiple DUR conditions, the pharmacist may override the denials using any one of the DUR conditions for the conflict code. Pharmacies submitting paper bills may enter the DUR codes in the DUR Codes field.

Pharmacies must retain file documentation of the reasons for the overrides. If you have questions regarding DUR codes, contact the Provider Hotline (PHL) at 1-800-848-0811.
Will pharmacists be able to override a refill-too-soon edit?
The POS system will deny pharmacy bills that have less than 70% of days supply used at time of refill with rejection code 79. After professional review, if the pharmacist determines it is medically appropriate, he/she may override the denial.

To override a refill-too-soon rejection code, a pharmacist may enter an appropriate code from the following:
- 03 (ZERO, 3) Vacation supply
- 04 (ZERO, 4) Lost prescription
- 05 (ZERO, 5) Therapy change
- 06 (ZERO, 6) Starter dose
- 07 (ZERO, 7) Medically necessary

Pharmacies submitting paper bills may enter a valid code in the Remarks field.

NOTE: When a pharmacy bill is denied for both refill-too-soon and DUR conditions and an override is warranted, the pharmacist will need to use appropriate codes in overriding the denials for both conditions.

Will L&I pay third party billers for pharmacy services?
Pharmacy services billed through a third party pharmacy biller will be paid using the pharmacy fee schedule only when:
- A valid L&I claim exists; and
- The dispensing pharmacy has a signed Third Party Pharmacy Supplemental Provider Agreement on file at L&I; and
- All POS edits have been resolved during the dispensing episode by the dispensing pharmacist, and
- The bill is submitted through the L&I POS system.

NOTE: Third party pharmacy billers cannot resolve POS edits.

L&I pharmacy providers that bill through a third party pharmacy billing service must:
- Sign a Third Party Pharmacy Supplemental Provider Agreement
- Allow third party pharmacy billers to route bills on their behalf,
- Agree to follow L&I rules, regulations and policies and
- Ensure that third party pharmacy billers use L&I’s online POS system and
- Review and resolve all online POS system edits using a licensed pharmacist during the dispensing episode.

Third Party Pharmacy Supplemental Agreements can be obtained either through the third party pharmacy biller or by contacting Provider Accounts at 360-902-5140. The third party pharmacy biller and the pharmacy complete the agreement together and return it to L&I. For more information refer to the Pharmacy Services website at: [http://www.Lni.wa.gov/ClaimsIns/Providers/Treatment/Presc/default.asp](http://www.Lni.wa.gov/ClaimsIns/Providers/Treatment/Presc/default.asp).

POINT OF SERVICE SYSTEM-STATE FUND BILLS

This section describes the department’s online Point of Service (POS) system. It contains:

- Technical specifications for the system and
- Information on how pharmacies can receive electronic remittance advices

For more information refer to the Pharmacy Services section of the website at
Billing L&I for Pharmacy Services

What are the specific billing requirements for the NCPDP 5.1 format?
The NCPDP 5.1 format is only available until January 1, 2012. The department will then migrate to NCPDP D.0. Please access the current payer sheet at http://www.lni.wa.gov/ClaimsIns/Files/Providers/PayerSheet.pdf

Do pharmacies have to use the online POS system?
No. Pharmacies may submit their bills through hard copy billing. However, pharmacies are encouraged to bill L&I using the POS system for all prescriptions, including those prescribed during the initial visit.

ALL BILLS WILL BE PROCESSED AND EDITED THROUGH THE POS SYSTEM regardless of how they are submitted.

Do pharmacies need a separate agreement with L&I to use POS system?
No. A separate agreement with L&I is not required to use POS but pharmacies do need to have a current
- L&I provider account number and
- NCPDP number (formerly NABP number).

How do pharmacies begin using POS with L&I?
Contact your software or switch vendor to establish a connection. L&I has contracted with Emdeon to provide switching services for the system. Current payer sheet with billing requirements is available at http://www.lni.wa.gov/ClaimsIns/Providers/TreatingPatients/Presc/Billing/default.asp#1

What are the hours of operation for the POS system?
Monday - Saturday  6:00 a.m. to 12:00 a.m. (Pacific Time)
Sunday  6:00 a.m. to 10:00 p.m. (Pacific Time).

How long do I have to submit a bill?
Within one year of the date of service for it to be considered for payment.
Will pharmacies be able to receive electronic remittance advices for State Fund bills? Yes. Pharmacies using the NCPDP 5.1 format may also choose to receive their remittance advices in the HIPAA compliant ASC X12N 835 format. These transactions are available on the Provider Express Billing (PEB) website. For information regarding the use of PEB and receiving these transactions, see:

Or Contact

- Electronic Billing Unit at (360) 902-6511 or

Which bills can pharmacies submit through L&I’s POS system? Pharmacies may submit bills for prescriptions for all open and allowed SF claims (including claims for bankrupt self-insured employers) and first fills for SF claims. POS will finalize these bills as either paid or denied. Pharmacies can also submit bills for injured workers who pay for their prescriptions when their claims have not yet been initiated or allowed. The department will capture these bills and reimburse the injured workers if and when the claims are allowed and the drugs are authorized.

Are there bills that cannot be submitted through L&I’s POS system? Yes, pharmacies may not bill the following through POS:

- Bills for the Crime Victims Compensation Program
- Bills for self-insurers’ claims
- Compound drugs
- Medical supplies and durable medical equipment

Note: Pharmacies must submit paper bills for compound drugs. Third party pharmacy billers cannot bill for compound drugs.

Who do I call if I have technical problems? Call your software or switch vendor first before contacting L&I’s Provider Hotline (PHL) at 1-800-848-0811.
MANUAL BILLING INSTRUCTIONS

PROVIDER ACCOUNT NUMBER REQUIRED - If you do not have an L&I provider account number, please call Provider Accounts at 360-902-5140 to request a provider application form. You can also obtain a provider application online [http://www.lni.wa.gov/Forms/pdf/F248-011-000.pdf](http://www.lni.wa.gov/Forms/pdf/F248-011-000.pdf). 5. **L&I PROVIDER NUMBER/NPI**: Enter the provider account number issued to you by L&I or National Provider Identifier (NPI) issued to the pharmacy.

If you do not have an L&I provider account number, call Provider Accounts at (360) 902-5140 to request a provider application form.
