Standards for Continuing Education Instructors

General Standards:

1. Scholarship and/or technical skill that represents appropriate study, training, and skills in the proposed area of instruction.
2. Expertise as a practitioner as evidenced by reports of former associates and supervisors.
3. A demonstrable understanding and acceptance of the role to be played as a partner in an educational enterprise serving the best interests of the students.
4. Personal characteristics that contribute to the ability to promote the welfare of students and the State of Washington.

In addition to the general standards as noted above, in the case of plumbing vocational education personnel, the Plumbers Board Subcommittee for Continuing Education shall recommend to the department that candidates for approval meet or exceed the following standards in their areas of specialization:

Specialized Qualifications:

1. Professional personnel performing services for which advanced degrees are normally available shall hold the equivalent of a master's degree in the field of their educational service from an accredited college or university or a bachelor's degree and extensive professional expertise in the field of their educational service.
2. Professional personnel in vocational fields or other specialized areas for which advanced degrees are not normally available shall have sufficient broad and comprehensive training and work experience that particularly qualifies them to provide instruction in their area of specialization.
3. All plumbing education teaching personnel must have recent work experience beyond the learning period as a fully qualified worker in the occupation that will be taught. The minimum work experience shall be equal to the recognized learning period required to gain competence in the occupation, but shall be in no case less than two (2) calendar years of full-time work, or it's equivalent, beyond the learning experience. The number of hours worked shall be equivalent to the hours worked by full-time workers in the occupation to be taught.
 - a. Minimum work experience for apprentice able occupations will be equal to the learning period then currently registered with the Department of Labor and Industries.
 - b. Minimum work experience in occupations requiring state licensing or certification will be two (2) calendar years subsequent to receipt of license, unless the occupation is also an apprentice able trade. Current licenses and/or certifications shall be maintained as a requirement for teaching courses in the respective occupation.
 - c. Recent work experience shall be defined as employment full-time for six (6) months or the equivalent within two (2) years immediately preceding certification.
4. All other plumbing education teaching personnel who do not meet the work experience and educational requirements specified above may be employed either on a full-time or part-time basis, provided that such individuals shall possess appropriate technical skills and knowledge in the specific area.
