Rep. Mia Gregerson, D-SeaTac

Introductions

Background/Goals

Speakers Anne Soiza and Alan Lundeen

Ms. Soiza and Mr. Lundeen described the purpose of committee. The department partners with many different industries using advisory committees. The department doesn't have a PSM Advisory Committee. We are beginning our efforts to organize the PSM Advisory Committee with this meeting.

The department is looking for ideas to improve PSM across the state.

We would like to increase communication with everyone in the industry. This effort will be all inclusive. We are looking to the industry to provide their PSM safety experts to improve safety across the state.

Presentations by both Labor and Business

Frank Holmes, WSPA Manager completed a presentation for business explaining the efforts the industry has undertaken to improve safety within the refineries. The presentation will be posted on the [PSM Advisory Committee's web site](#).

Holmes offered to bring in experts to present PSM topics.

Kim Nibarger, USW, International talked to the committee representing labor. He said they are in full support of the efforts to improve safety within the refineries. He felt improvements were needed and the PSM safety could be improved in the state.

Draft PSM Advisory Committee Charter

Mr. Lundeen asked the committee to review the draft charter and provide comments by the end of October.

CSB Letters

Mr. Lundeen described the CSB letters in the meeting packet to the committee and asked for the committee's help to draft DOSH's reply to the CSB.

DOSH can address the concerns of the petition and the letter from CSB with the help of this committee. DOSH wishes to address this in partnership with both labor and industry.

Adjourn

Future meetings:

January 6, 2016 L&I Service Location, 12806 Gateway Dr. S., Tukwila, WA 98168

April 5, 2016 L&I Service Location, 12806 Gateway Dr. S., Tukwila, WA 98168

Action items

Committee members were asked to submit comments regarding the draft charter by Oct. 30

Representatives from both labor and business will meet in October to plan for the Jan. 6 PSM Advisory Committee meeting.
