RE: Cancellation notice for the Southwest Washington Associated General Contractors Laborers
Apprenticeship Committee Standards of Apprenticeship

To Whom it May Concern,

I have received notice that the Department is moving to request the cancellation of the Southwest Washington Associated General Contractors Laborers Apprenticeship Committee Standards of Apprenticeship due to lack of program registration activity over the past fourteen years. The committee has not needed to register apprentices to the standard due to the reciprocal agreement in place between Oregon, Washington and Montana. The committee is not opposed to the cancellation of this standard, but would like assurance that the Washington State Apprenticeship & Training Council will work with the program sponsor to reestablish the standards in the unlikely event that the reciprocal agreement becomes unfavorable.

I plan to attend the WSATC quarterly meeting in July and October. If you have any questions or concerns prior to the meeting, please do not hesitate to contact me.

On Behalf of the Southwest Washington Associated General Contractors Laborers Apprenticeship
Committee,

Sara Gourley
Program Administrator

RE: Cancellation notice for the Southwest Washington Associated General Contractors Laborers Apprenticeship Committee standards of apprenticeship.

Dear Council Members:

The Department is moving to request cancellation of the program registration per Washington Administrative Code (WAC) chapter 296-05-321 due to the lack of response received from the program sponsor to our letter dated December 26, 2014. This letter Requested a response from Southwest Washington Associated General Contractors Laborers Apprenticeship Committee within 60 days (by February 24, 2015) to show cause why their apprenticeship program standards should not be cancelled due to an extensive period of inactivity.

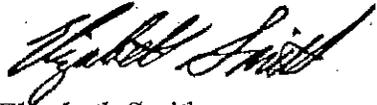

The Southwest Washington Associated General Contractors Laborers Apprenticeship Committee standards of apprenticeship are being recommended for cancellation due to the lack of program registration activity over the past fourteen years. It appears the sponsor in question may be utilizing reciprocity to access work in Southwest Washington for Oregon State registered apprentices as is the intent of the reciprocity agreement between Oregon and Washington.

I will be placing the Southwest Washington Associated General Contractors Laborers Apprenticeship Committee standards of apprenticeship on the October 2015 Washington State Apprenticeship & Training Council (WSATC) quarterly meeting agenda under "Cancellation of Apprenticeship Standards". Please contact our Washington State Apprenticeship Consultant assigned to this program, Jody Robbins by phone 360-902-6412 or by email rojo235@lni.wa.gov if you have questions.
