Course Descriptions and Presenters

Prevailing Wage (*Experienced contractors*) Intents and affidavits on-line, completing and filing. Scopes of work and prevailing wage rates – where to find them and how they are set. Certified payroll and other information you need to know when working on a public works project. Presented by Laura Herman, Dept. of Labor and Industries.

Advanced Prevailing Wage (*Experienced contractors*) Advanced discussion of state prevailing wage law requirements. This workshop is intended for contractors that already have a solid foundation of knowledge of prevailing wage on public works requirements. The workshop focus will be on advanced topics with an open discussion of problems, issues and correct resolutions. We will have certain key topics prepared but will focus primarily on your questions and issues. Please bring your public works and prevailing wage questions and issues! Presented by Laura Herman, Dept. of Labor and Industries.

Hiring "Independent Contractors" & Avoid Prime Contractor Liability (*All Contractors*) Learn the distinction between an "independent contractor" and a covered worker. In some cases, someone you consider an "independent contractor" is actually a worker who has legal protections that cannot be waived. If so, you may be an employer with "covered workers" under Washington workers' compensation law and not realize it. This overview will help you understand the necessary requirements for independent contractors about potential liabilities for your Sub-Contractors Workers Compensation premiums. Presented by Allen Thurston, Dept. of Labor and Industries.

New Contractor Overview (*New contractors*) Information on how to protect your contractor registration status: Model disclosure requirements, advertising as a contractor, exemptions, fraud reporting and violations. Presented by Jesse Jameson, Dept. of Labor and Industries.

Everything You want to know about your L&I Account (*Contractors with employees*) Learn what happens when you open your L&I account. What are risk classes and how they are assigned? Learn how rates are set and adjusted; how claims affect rates; what you can do to control your company's rates; and about the processes for filing your quarterly premium reports. Presented by Roseann Collins and Chris Alcatraz, Dept. of Labor and Industries.

Managing Claims to Control Your Industrial Insurance Costs (*All contractors*) Overview of the industrial insurance claims process for the new employer. We will help you understand your rights and responsibilities to protect workers from injury and what the processes are when an employee is hurt. "Light duty" and "return to work" opportunities, communicating with and getting the proper information to the claims manager and protest timelines and information. Presented by Nancy Adams, Dept. of Labor and Industries.

Stay At Work – Workers Comp Insurance Program (*Contractors with employees*) - Learn about L&I's new program to help employers keep injured workers on the job and the best part is L&I pays half the wages plus expenses to do it. Learn about how to qualify, how the program works and how this program can benefit your company and your worker. Presented by Joyce Allen, Stay at Work Program Specialist, Dept. of Labor and Industries.

State Taxes Sales, Use and B&O (*All contractors*) Get your questions answered about use taxes, B&O filing and other useful information from the Department of Revenue. Presented by Linda Miller-Baldwin and Jason Sayer, Dept. of Revenue.

*****Electrical Licensing 101** (*All contractors*) This class will explore the breakfast chat stories about who really can do electrical work, when electrical permits are needed, and is there any such thing as minor work. New permit types, licensing rules, and available on-line services will be discussed. Presented by Darin Lyon, Dept. of Labor and Industries. (Plumber Industry Related CEU Course.)

*****Plumbing Contractors – Certification Requirements** (*All contractors*) – Proof of hours, what are the employer requirements, common causes that generate an audit and what is the difference between a trainee and an apprentice. Presented by Bruce Springer, Plumbing Technical Specialist, a 28 year journeyman plumber and 10 year veteran of Labor and Industries. (Plumbing Industry Related CEU course)

***Plumbing Code Training – Part 1** – Learn common mistakes, code clarifications and how to save your company time and money. Presented by Bruce Springer, Plumbing Technical Specialist, a 28 year journeyman plumber and 10 year veteran of Labor and Industries.

***Plumbing Code Training – Part 2** – Current code, the UPC and Washington Amendments, highlights of recent code changes. Presented by Bruce Springer, Plumbing Technical Specialist, a 28 year journeyman plumber and 10 year veteran of Labor and Industries.

Fall Prevention (*All Contractors*) Workers who work above 4' from a platform must use fall protection and be trained on its use or implementation. Often at 10', personal fall arrest or similar systems must be used. This class covers anchors and their requirements, personal fall arrest systems, written Fall Protection Plans (both on and off the jobsite). Presented by JC Smith and Gary Sadowski, Safety and Health Consultants, Dept. of Labor and Industries.

Accident Prevention Plans / Safety (*All contractors*) – Learn how a viable and comprehensive accident prevention / safety program saves you money. Tools to develop or fine-tune your accident prevention program and ideas to develop a "Safety Culture" in your workplace. Presented by Derek Pina, Safety Consultant, Dept. of Labor and Industries.

Course Descriptions and Presenters, continued

OMWBE Certification Workshop (*All Contractors*) The Washington State Office of Minority and Women's Business Enterprises is presenting this workshop for all small businesses interested in contracting with state government. The certification you may receive is used by buyers for state agency, educational institutions and transportation related projects. Learn the benefits of certification ... and you can bring your prepared application if you wish! (Fees for submitting an application may apply.) For more information prior to this event visit us at www.omwbe.wa.gov., or call a "Certification Trainer" 1-866-208-1064.

Preparing Your Contract and Warranty (*All contractors*) Learn the most important terms and conditions to have in your contract, what they mean, and why they need to be there. This course will cover warranties, scope of work, change orders, correction of work, building code issues, payment issues, commencement and completion dates, delay issues, fixed price contracts vs. T&M contracts, allowances, liquidated damages and dispute resolution. It is recommended that each attendee bring a copy of his/her company contract to review and mark up during the course. Presented by Linville Law Firm.

Surviving as a Subcontractor (*All contractors*) Learn why and how to utilize conditional bidding and inclusions, exclusions and alternates in your bidding process in order to limit your liability and provide the general contractor with expectations which are reasonable. Learn the common subcontract terms and pitfalls to avoid. The class will review problematic clauses such as pay-when-paid, change directives, warranties, pass through claims, and termination for convenience, scheduling, notice, venue, and dispute resolution. Learn the basics of Washington law with the regard to the recording of liens and the filing of claims against payment bonds and retainages. Presented by Linville Law Firm.

Protecting Your Business and Your Customer (*All contractors*) WA laws afford certain protections to your customers and those laws also require that you provide certain notices to your customers. Learn how to protect your business through proper formation of the appropriate business entity such as a corporation or an LLC, learn who can and cannot file claims against your contractor's registration bond, and learn how to protect your customer against unwanted liens from your subcontractors and their employees. Learn the value of covenants not to compete, employee manuals, and restrictive employment agreements. Presented by Linville Law Firm.

Managing a Difficult Customer (*All contractors*) Learn how to recognize a difficult customer in advance and be prepared to deal with a difficult customer so at the end of the project the customer is happy with your work, and you receive full and final payment for your work. Learn how to manage your customer before and after you start work on the project. Learn the reasons why some builders are successful and are able to avoid legal problems with their customers, get the job done, and get paid for their work. Presented by Linville Law Firm.

Government Contracting 101 (*All Contractors*) Growing your business through government contracts can be a bit daunting at first. Discover tools and information that can help you determine who in state and local government buys what you sell, how they buy it, and how you can prepare your firm to succeed in the public marketplace. You'll also be introduced to certifications and resources that may help you gain an edge on the competition. Presented by Darrell Sundell, Washington Procurement Technical Assistance Center.

Advanced Government Contracting (*All Contractors*) This seminar will provide an overview of what you need to know when contracting on a publicly owned project, including bidding, contract drafting and legal issues specific to public projects. Presented by Brett Hill, Attorney, Ahlers & Cressman PLLC.

Insurance Coverage and Bonds – What YOU Should Know (*All Contractors*) Learn some of the differences in insurance policies and bond coverage. What's covered & what's NOT, common exclusions, contract obligations and other legal issues related to contractors insurance. Presented by Brett Hill, Attorney, Ahlers & Cressman PLLC.

Common Legal Issues for Contractors – (*All Contractors*) Learn about common legal issues and problems faced by contractors. This class will include a review of consumer notices required by law, typical construction contracting mistakes and how to avoid them, understanding personal liability issues and common pitfalls, etc. Presented by Sage Linn, Attorney with Impact Law Group PLLC.

Construction Contract Review Workshop (*All Contractors*) Bring your contract and or bid documents and we will review them in class to determine what works, what doesn't and why. Presented by Sage Linn, Attorney with Impact Law Group PLLC.

Effective Marketing for Contractors (*All contractors*) Learn the differences between "marketing" and "advertising"; communication skills for the business owner; how to develop a business identity and use it effectively in advertising; and the advantages and disadvantages of the various forms of advertising. Presented by Jan Rohila, Education Program Director for Building Industry Association of Washington.

Bidding, Estimating and the Bottom line - 10am -(*New contractors*) - The crucial skills of bidding and estimating – know all the costs to make an accurate bid that will cover labor, supplies, taxes etc., to ensure you have a profit built into each bid. Presented by Kris Alberti, Director of the NW Independent Contractors Association (NICA).

Renovation Requirements for Asbestos, Lead, Mold, and Silica – (*All contractors*) – **1:00 pm, 2:00 pm and 3:30 pm Classes**: This course covers the regulations and Agencies (more than 6) that construction companies have to follow when their workers are exposed to **Asbestos, Lead, Mold, and Silica** in residential renovations. Class covers basic containment, PPE required, work practices (including air sampling equipment required) and decontamination procedures. Attendees who successfully complete the course receive the **required 2 Hour Asbestos Awareness Certificate** and a **Lead in Construction Awareness Certificate**. Presented by Kris Alberti, Executive Director, NICA.

Hazardous Communications (HCS) – Globally Harmonized Systems (GHS) – (*Employers*). Labor and Industries updated the current Hazard Communication Standard (HCS) in the United States to the internationally standardized United Nations' Globally Harmonized System (GHS). This class will cover the new Standard, basic HAZ COM programs for companies, the new approach to classifying chemical hazards, reading warning labels, and organizing information on safety data sheets. Don't miss this opportunity to get free tools on the new required program and training. Presented by Kris Alberti, Executive Director, NICA.
