

SPECIAL EDITION

● New 2014 Electrical Code and Other Possible WAC Changes

The 2014 edition of the National Electrical Code (NEC) was adopted by the NFPA in late August 2013 and published editions will soon be available, the [NFPA](#) also provides free access on their website. The upcoming rule development process will allow Washington's electrical stakeholders to make recommendations to the department regarding adoption of specific sections of the 2014 NEC. The department will evaluate proposals and determine the extent of stakeholder support and economic impacts. This rule development process will include possible modification to all sections of WAC 296-46B, excluding the scopes of work in WAC 296-46B-920.

● Keep Informed

There will not be a specific mailing list for this WAC revision process. Special WAC update postings will be maintained using the Electrical Program's [Electrical Email List](#), [Rule Development](#) page of our website, and [Electrical Currents](#) newsletter.

The best way to stay informed of the WAC process and other electrical issues is to join the *Electrical Email List* at:

● The Department Is Seeking Stakeholder Input for Proposed Rule Changes

Any stakeholder in the electrical industry may make proposals for additions and/or revisions to the Washington Administrative Code WAC 296-46B – Electrical Safety Standards, Administration, and Installation electrical rules. Proposals from stakeholders may be submitted from October 1, 2013 through October 31, 2013. Proposal submission guidelines are detailed below.

Rules are developed to aid both stakeholders and the department in clarification or enforcement of the intent of the electrical statute. Technical changes require evidence of a specific problem and substantiation that the proposal will provide a solution for that problem.

The department is responsible for development of all rules. The department will act as the correlating body during the rule development process and may at any time promote rule change as necessary to accommodate statutory change or department policies or procedures.

The **Proposal Form for 2014 WAC 296-46B Rule Changes** shown on page four of this edition must be used to submit rule proposals for the 2014 revision cycle. An electronic MS Word version of the form will soon be available on our Rule Development page at:

<http://www.lni.wa.gov/TradesLicensing/Electrical/LawRulePol/RuleDev/default.asp>

Stakeholder proposals **must be received from 12:01 a.m. October 1, 2013 through 11:59 p.m. October 31, 2013. Any proposal received before or after these dates will be rejected. All proposals must be made electronically** using the form supplied by the department.

The submitter may submit a proposal(s) by:

- Sending the proposal(s) as an email attachment to ElectricalWAC@lni.wa.gov. Please do not attempt to submit early, as this email address will not function until October 1, 2013; or

- Mailing a compact disc containing the proposal(s) to Chief Electrical Inspector, P.O. Box 44460, Olympia, WA, 98504-4460 – must be received by the closing date.

Proposed revisions should include the relevant existing text and should use legislative format (i.e. Use underscore (or underlining) to denote wording to be inserted (i.e. inserted wording) and strike-through to denote wording to be deleted (i.e. ~~deleted wording~~)).

Proposals not submitted according to these instructions will be rejected.

● **Technical Advisory Committee (TAC)**

The TAC process has proven to be very valuable in past years. The department will again appoint a General TAC made up of experts and interest group representatives to review and make recommendations on proposals from the electrical industry.

Persons interested in becoming TAC members must submit a letter of interest for specific positions to the Chief Electrical Inspector, P.O. Box 44460, Olympia, WA, 98504-4460 **to be received from** October 1, 2013 through October 31, 2013. The letter should show constituency support for the prospective member. All applications will be evaluated to determine that the applicant meets the requirements for the position.

In order to keep the size of the TAC to an efficient and effective number, the committee will be limited to 32 voting members. The TAC makeup will be based on an equitable distribution relative to proportion of involvement within the electrical industry in Washington. TAC membership provides an opportunity for everyone interested in the Electrical Program's WAC development to participate in the process.

If necessary, each successful candidate may have an alternate attend the TAC meeting. There will be no formal alternate assigned by the department. Any TAC member that is absent must notify the Chief Electrical Inspector of the alternate's name one week prior to the TAC meeting. Failure to make the required notification will result in the position being vacant during the meeting.

● **The TAC – Process**

The TAC will make recommendations on industry proposals and identify proposals that may have an economic impact on other specialties, small businesses, construction costs, or the cost of enforcement. Members who know they will be absent from a TAC meeting should make every effort to send an alternate. The TAC must review and evaluate proposals based on the need:

- o To address a critical life/safety need;
- o To address a specific state policy/statute;
- o To maintain a fair competitive environment;
- o To address a unique character of the State; or
- o To correct errors and omissions.

The TAC will operate on a majority basis. A majority vote in support of a motion, of members in attendance, will be considered as significant support for the motion made on a specific proposal. The TAC can propose amended language to a proposal. All voting members share an equal vote. The department will consider all TAC recommendations.

● **2014 WAC Revision Process – Proposed Sequence of Events**

- o **September 2013** – File CR 101 – pre-proposal statement of inquiry.

07E	7	0%	0	110	0%	0
09	352	7%	0		0%	0
10	25	0%	0	52	0%	0
Ad Hoc Group	1,318	24%	3	3,312	12%	1
Total	5,359		10	27,129		10
Notes:	<9% of Licenses/Certificates joins the Ad Hoc group					
	The Ad Hoc group will be filled on an equitable basis with an emphasis on representation closely following the % of licenses, with an effort to fairly represent the different specialties.					
	Unfilled positions will remain vacant.
