Chapter 296-870 WAC

Index

Index

A

- Access and egress to platforms, carriages, **700-4**
 - davits, new installations, **700-9**
 - outriggers, transportable, **700-7**
 - supported equipment, **700-16**
- Acids, corrosive substances, **200-6**
- Anchorage
 - carriage strength and stability, **700-5**
 - fall protection, **200-2**
 - transportable outriggers, **700-7**
- Anemometer, **200-5**
- Angulated roping and building face rollers, exemption, **600-4**
 - stabilization systems, new installations, **600-8**
- ANSI requirements
 - building design, new installations, **600-3**
 - design and construction, existing installations, **500-3**
 - electrical, existing installations, **500-5**
- Application, chapter scope, **100-1**

B

- Babbitt fastenings, suspension wire ropes, **700-27**
- Bolted connections, elevated building maintenance equipment, **700-3**
- Brackets, **300-2**
- Brakes, hoisting machines, new installations, **700-10**
- Braking or locking system, **700-7**
- Break-glass receptacle, working platforms, **700-19**
- Broken wires, **300-5**
- Buildings
 - design, new installations, **600-3**
 - emergency escape routes, emergency action plan, **400-3**
 - guides, supported equipment, **700-24**
 - maintenance, scope, application, **100-1**
 - owners, certifications, **200-2**
 - parapet, davits, **700-9**
- Button guides
 - stabilization systems, new installations, **600-7**
 - stabilized working platforms, **700-21-23**
 - suspended unit component, **700-12**

C

- Cable stabilization, **600-8**
- Cables, manned platforms, suspended working platforms, **700-16**
- Carriages, new installations, **700-4-7**
- Certification
 - training, **400-4**
 - maintenance, **200-2**
- Cleaning parts, **300-2**

- Climate conditions, design, **600-3**
- Cog wheels, supported equipment, **700-24**
- Collectors, electrical, **500-5**
- Communications
 - operations, **200-7**
 - buildings, new installations, **600-11**
- Conductors, electrical, **500-5**
- Connectors, stabilized working platforms, **700-23**
- Contacts and relays, **300-2**
- Control circuits, new installations, **700-29**
- Control systems
 - electrical runway conductor system, **700-29**
 - table 2, periodic inspections and tests, **300-6**
- Core failure, **300-5**
- Corrosion resistant, stabilization systems, **600-4**
- Corrosive substances, **200-6**
- Counterweight, carriage strength and stability, **700-5**

D

- Damage, heat-producing processes, **200-6**
- Davits, new installations
 - access and egress to platform, **700-9**
 - design and construction, **700-3**
 - ground rigged, **700-9**
 - roof rigged, **700-9**
 - transportable, **700-9**
- Definitions, **800-1-8**
- Design and construction,
 - existing installations, **500-3**
 - new installations, **700-3**
- Design stability factor, transportable outriggers, **700-7**
- Direct connection anchorage, working platforms, **700-18**
- Directional sheaves, hoisting machines, **700-10**
- Disabled devices, **300-8**
- Disconnecting means, **500-5**
- Distortion of rope structure, **300-5**
- Drive wheels, supported equipment, **700-24**

E

- Electrical
 - existing installations, **500-5**
 - new installations, **600-9**
 - devices, **300-8**
 - runway conductor system, **700-29**
- Elevated track system, **600-10**
- Elevated building maintenance equipment, **700-3**
- Emergencies
 - action plan, **400-2-3**
 - electric operating device, **700-19**
 - stop device, carriage traversing, **700-6**

Powered Platforms

Chapter 296-870 WAC

Index

Equipment

- design and construction, **700-3**
- failures, emergency action plan, **400-3**
- moving, **600-11**
- power disconnect switch, new installations, **600-9**
- suspension, **700-3**
- wind loads, **700-3**
- specifications, (note), **200-2**

Exemptions

- angulated roping, **600-4**
- equipment power circuits, **600-9**
- slipping hazards, **200-4**
- tie-in guides, **600-4**

Existing installations, all requirements, **500-1-5**

Exterior installations, design, **600-3**

F

Fall arrest system, working platforms, **700-18**

Fall protection

- anchorages, **200-2**
- guardrails, **500-4**
- personal fall arrest system, **200-7**; **500-4**
- roof and other elevated areas, **600-10**
- single point suspended working platforms, new installations, **700-18**

Field test (note), **200-2**

Fatigued portions, wire ropes, **300-8**

Flammable liquids, manned platforms, suspended working platforms, **700-16**

Four-point suspended platform, **700-19**

Flooring, platforms, new installations, **700-16**

G

Governors and secondary brakes

- before use, inspections and tests, table 1, **300-4**
- periodic inspections and tests, table 2, **300-6**

Ground rigged

- davits, new installations, **700-9**
- platforms, new installations, **700-16**
- working platforms, **700-20**

Grounded conductors, **500-5**

Guardrails

- carriages, new installations, **700-4**
- davits, **700-9**
- fall protection, **500-4**
- guarding roofs, **600-10**
- suspended equipment, **700-14**

Guides

- buttons, **700-23**
- rollers, **700-12**
- shoes, **700-12**
- tracks, **700-23**
- wheels, **700-24**

Guiding members, **300-2**

H

Hanging cables, stabilization, new installations, **600-8**

Hazardous conditions, **600-3**

Heat damage, **300-5**

Helpful tool, Typical platform stabilization systems, examples, **R-3-5**

Heat-producing processes, **200-6**

Hoisting machines, new installations, **700-10**

Hoisting

- before use inspections and test, table 1, **300-4**
- electrical runway conductor system, **700-28**
- rated load, **200-3**
- suspended or supported equipment, **700-10**
- wire ropes, **300-8**

Horizontal lifeline, working platforms, fall protection, **700-18**

Housekeeping, platforms, new installations, **700-16**

I

Ice, **200-4**

Inboard face, **600-10**

Independent electrical circuit, **600-9**

Inspections and tests, **200-2**; **300-3-7**

Installations

- existing, **500-3-5**
- initial, inspection and tests, **300-3**
- new, buildings, **600-1-11**
- new, equipment, **700-1-28**
- davits, **700-9**

Interlock

- carriage strength and stability, **600-11**
- carriages, **700-4**; **700-6**

Intermittent, stabilized, working platforms, **600-5**; **700-21**

L

Lifelines

- manned platforms, suspended working platforms, **700-16**
- stabilization, new installations, **600-8**

Limit switches, resocketed wire ropes, **300-8**

Lock out, carriages, **700-4**

Powered Platforms

Chapter 296-870 WAC

Index

M

- Maintenance
 - equipment, **300-2**
 - certification, **200-2**
 - protective devices, **300-8**
- Major modifications, inspection and tests, **300-3**
- Manned platforms, access gates, suspended working platforms, **700-16-17**
- Manual or automatic braking or locking system, carriage traversing, **700-6**
- Manually propelled carriages, **700-6**
- Maximum rated speed, manned platforms, suspended working platforms, **700-17**
- Midrail, suspended equipment guardrail system, **700-14**
- Minimum live load, design and construction, **700-3**
- Modifications, inspection and testing, **300-3**
- Moving equipment, **600-11**
- Multiple controls, carriage traversing, **700-6**

N

- Neutralizing solution, corrosive substances, **200-6**
- New installations, ANSI requirements, building design, **600-3**
- New installations, buildings, all requirements, **600-1-11**

O

- Obstructions and slipping hazards, **200-4**
- Operating controls
 - carriage traversing, **700-6**
 - suspended working platforms, new installations, **700-16**
- Operators, **200-3**
- Operator training, **400-2**
- Outer wire wear, **300-5**
- Outriggers
 - elevated building maintenance equipment, **700-3**
 - transportable, new installations, **700-7**

P

- Perimeter guarding system, **600-10**
- Periodic inspections and tests, **300-5-7**
- Personal fall arrest system, **200-3**; **500-4**
- Personnel, guarding roofs, **600-10**
- Personnel requirements, **200-3**
- Platforms, new installations

- access and egress, **700-16**
- button guide stabilized, **700-23**
- fall protection, **700-18**
- fire prevention, **700-16**
- flooring, **700-16**
- general requirements, **700-16**
- ground rigged, **700-16**
- hoist load limits, **200-3**
- housekeeping, **200-4**
- rate load, **200-3**
- slipping hazards, **200-4**
- Protective devices, disabling, **300-8**
- Potential falling, manned platforms, suspended working platforms, **700-16**
- Power
 - carriages, traversing, **700-6**
 - circuits, new installations, **700-28**
 - conductors, **500-5**
 - failures, emergency action plan, **400-3**
- Primary brakes, hoisting machines, **700-10**
- Procedures, emergency action plan, **400-2**
- Protective devices
 - carriage traversing, **700-6**
 - maintenance, **300-8**
 - new installations, **700-28**

Q

- Quick connect, disconnect device, **700-21**

R

- Rated loads
 - platform and hoist load limits, **200-3**
 - transportable outriggers, **700-7**
- Registered professional engineer, design and construction, **700-3**
- Related building supporting structures, periodic inspections and tests, table 2, **300-6-7**
- Repair and maintenance
 - building, new installations, **600-11**
 - equipment, new installations, **600-11**
- Reshackling, wire ropes, **300-8**
- Resocketing, wire ropes, **300-8**
- Roof carriage system, carriage strength and stability, **700-5**
- Roof-rigged davits, new installations, **700-9**
- Roof and other elevated areas, fall protection, **600-10**
- Roof systems, maintenance, **300-2**

Powered Platforms

Chapter 296-870 WAC

Index

Rope connections
 babbitted fastenings, suspension wire ropes, **700-25**
 wire ropes, **300-8**

Rope deterioration, **300-5**

Rotating davits, **700-9**

Runway conductor systems, **500-5**

Rusting and pitting, **300-5**

S

Safety devices, **300-8**

Scope, chapter application, **100-1**

Secondary wire rope suspension system, new installations, **700-18**

Self-closing and self-latching, carriages, **700-4**

Sheaves, hoisting machines, **700-10**

Shoes, supported equipment, **700-24**

Single-point suspended, working platforms, **700-18**

Slip-resistant flooring, suspended working platforms, **700-16**

Snow, **200-4**

Slipping hazards, **200-4**

Stabilization

 carriages, new installations, **700-5**

 lifelines, new installations, **600-8**

 platforms, new installations, **700-16-21**

 systems, **600-4**; **600-8**

Stability factor

 carriage strength and stability, **700-5**

 electrical runway conductor system, **700-28**

Stabilizer ties, **200-4**

Stall load, hoisting machines, new installations, **700-10**

Strength, carriages, new installations, **700-5**

Strength and stability, suspended equipment, **700-12**

Structural stops and curbs, carriage traversing, **700-6**

Supported equipment, new installations, **700-24**

Suspended equipment, new installations, **700-12**

Suspended working platforms, slip-resistant flooring, **700-16**

Suspension wire ropes

 before use, inspections and tests, table 1, **300-4**

 connections, **700-25-27**

 periodic inspections and tests, table 2, **300-6-7**

 transportable outriggers, **700-7**

T

Table 1, before use inspection and tests, **300-4**

Table 2, periodic inspections and tests, **300-6-7**

Tanks, water, suspended working platforms, **700-16**

Test data (note), **200-2**

Testing and inspection, **300-1-8**

Tie-back rope, transportable outriggers, **700-7**

Tie-down devices

 carriage strength and stability, **700-5**

 design, **600-3**

Tie-in guides

 design, **600-3**

 exemption, **600-4**

 stabilization system, **700-7, 9**

Toeboard

 fall protection, **500-4**

 suspended equipment guardrail system, **700-14**

Tools, manned platforms, suspended working platforms, **700-16**

Top guardrail, suspended equipment guardrail system, **700-14**

Top rails, fall protection, **500-4**

Traction drums, hoisting machines, **700-10**; **700-25**

Training, **400-2-4**

Transportable,

 davits, new installations, **700-9**

 outriggers, **700-7**

Traversing controls, carriages, new installations, **700-6**

Two-point and four-point suspended working platforms,

 emergency electric operating device, **700-19**

 fall protection, **700-18**

Type b-c portable fire extinguisher, **700-16**

Typical platform stabilization systems, examples, **R-3-5**

V

Valley break, **300-5**

Verifications (note), **200-2**

Visual presentation, (note), **400-2**

Voice communications, **200-7**

Voltage drop, electrical, **600-9**

Powered Platforms

Chapter 296-870 WAC

Index

W

- Walkway, guarding roofs, **600-10**
- Water, manned platforms, suspended working platforms, **700-16**
- Weather conditions, **200-4, 5; 700-12**
- Width, platform, new installations, **700-16**
- Wind loads, equipment, new installations, **700-3**
- Wind speed, velocities, **200-5**
- Winding drum, hoisting machines, new installations, **700-10,25**
- Wire rope
 - connections, new installations, **700-25**
 - heat damage, **200-5**
 - inspection and testing, **300-5**
 - reshackling, **300-8**
 - resocketing, **300-8**
 - suspension, new installations, **700-25**
- Wiring and equipment, electrical, **500-5**
- Work procedures, **400-2**
- Working order, **300-2**
- Working on platforms
 - before use inspections and tests, table 1, **300-4**
 - davits, **700-9**
 - fall protection, **700-18**
 - guarding roofs, **600-10**
 - manned platforms, supported equipment, **700-16-17**
 - obstructions and slipping hazards, **200-4**
 - periodic inspections and tests, table 2, **300-6-7**
 - personnel requirements, **200-3**
 - suspended unit component, **700-12**
 - transportable outriggers, **700-7**
 - two-point and four-point suspended, **700-19**
- Written certifications, **200-2**

Notes
