

WAC 296-17A-6306 Classification 6306. (~~6306-00 Stores: Furniture -- Wholesale or retail~~

~~Stores: Billiard or pool table -- Wholesale or retail~~

~~Applies to establishments engaged in the wholesale or retail sale of new, used, or antique household furniture. This classification also includes the sale of related items such as, but not limited to, lamps, bedding, pillows, floor and window coverings, framed pictures, art pieces and sculptures when sold in connection with a furniture store operation. This classification includes the delivery and the incidental repair of merchandise sold. Incidental repair in this classification is limited to such activities as the repair or cleaning of upholstery or fixing a small scratch on a table. The installation of carpet and window coverings may be included in this classification if such merchandise is part of the store's inventory and is readily available for sale and delivery to the customer. The contract installation of any merchandise which must be ordered from a factory or distributor to fulfill the terms of contract is to be reported separately in the classification applicable to the work being performed. For example, a furniture store could bid on a job to carpet all units of an apartment complex. If the carpet is ordered from the factory as opposed to carpet carried at the store and in the store's inventory, then the installation is to be reported separately in classification 0502. This classification also applies to stores that sell billiard or pool tables.~~

~~**Special note:** Care should be exercised when considering this classification for antique or used furniture stores since such establishments may actually be a furniture refinishing business or an upholstery shop which are to be reported separately in the appropriate classification. Repair work covered by this classification (6306) is limited to such activities as fixing a small scratch on a table, replacing a piece of glass or mirror in a china or curio cabinet, sewing on a button or adjusting a reclining chair mechanism. Classification 6306 should not be assigned to an establishment that is engaged in furniture refinishing, or upholstery work which are to be reported separately in the applicable service or repair classification.~~

~~**Special note:** Clerical office and outside sales employees may be reported separately provided all the conditions of the general reporting rules covering standard exception employees have been met.~~

6306-01 Stores: Furniture and durable medical equipment -- Rental

Applies to establishments engaged in the rental of new, used, or antique household furniture. This classification also includes the sales of related items such as, but not limited to, lamps, bedding, pillows, framed pictures, art pieces and sculptures when sold in connection with a furniture rental store operation. This classification includes the delivery and the incidental repair of merchandise rented. Incidental repair in this classification is limited to such activities as the repair or cleaning of upholstery or fixing a small scratch on a table. This classification also applies to establishments that provide rent to own purchasing options, and to establishments engaged in the sale or rental of hospital beds, motorized wheelchairs and similar patient appliances.

Special note: Care should be exercised when considering this classification for an antique or used furniture store since such establishments may actually be a furniture refinishing business or an upholstery shop which are to be reported separately in the appropriate classification. Repair work covered by this classification (6306) is limited to such activities as fixing a small scratch on a table, replacing a piece of glass or mirror in a china or curio cabinet, sewing on a button or adjusting a reclining chair mechanism. Classification 6306 should not be assigned to an establishment that is engaged in furniture refinishing, or upholstery work which are to be reported separately in the applicable service or repair classification.

Special note: Clerical office and outside sales employees may be reported separately provided all the conditions of the general reporting rules covering standard exception employees have been met.

Household appliances include, but are not limited to, refrigerators, freezers, stoves, range tops, trash compactors, washing machines, clothes dryers, television consoles, big screen televisions, and television antennas or satellite dish receiving units. Appliance stores will routinely carry smaller appliances which are generally referred to as counter top units which include, but are not limited to, mixers, blenders, microwave ovens, toasters and espresso machines and are included in this classification when sold in connection with the appliance store operation. This classification covers the sale of primarily new appliances although establishments subject to this classification accept trade-ins and sell some used appliances. Also included is the incidental repair of appliances sold by the appliance store, parts departments employees, and the delivery of products sold. The contract installation of any merchandise which must be ordered from a factory or distributor to fulfill the terms of contract is to be reported separately in the classification applicable to the work being performed. For example, an appliance store could bid on a job to supply appliances for all units of an apartment complex. If the appliances are ordered from the factory as opposed to items carried at the store and in the store's inventory then the installation is to be reported separately in classification 0607. Establishments engaged in the sale of commercial appliances may be assigned to this classification provided such establishments operate a bona fide store operation. Generally, however, commercial appliances such as those used to equip bakeries and restaurants are factory ordered items which are made to a customer's specifications from a manufacturer's representative.

Special note: Care should be taken when considering this classification for an antique or used appliance store since such establishments are primarily engaged in reconditioning appliances (service and repair) for resale and are to be reported separately in classification 0607.

Special note: Clerical office and outside sales employees may be reported separately provided all the conditions of the general reporting rules covering standard exception employees have been met.

This classification includes the delivery of furniture and related items, and the incidental repair of office furniture items sold by the office furniture store such as upholstery repair and cleaning. The installation of carpet and window coverings may be included in this classification if such merchandise is part of the store's inventory and readily available for sale and delivery to the customer. The contract installation of any merchandise that must be ordered from a factory or distributor to fulfill the terms of contract is to be reported separately in the classification applicable to the work being performed. For example, an office furniture store could bid on a job to supply modular desk units for a large office complex. If the desk units are ordered from the factory as opposed to units carried at the store and in the store's inventory, then the installation is to be reported separately in classification 2002.

Special note: Care should be exercised when considering this classification for an antique or used office furniture store since such establishments may actually be a furniture refinishing business or an upholstery shop which are to be reported separately in the appropriate classification. Repair work covered by this classification (6306) is limited to such activities as fixing a small scratch on a table, replacing a piece of glass or mirror in a china or curio cabinet, sewing on a button or adjusting a reclining chair mechanism.
