#### Important notes:

The consultations and inspections above involved a COVID-19 safety complaint or resulted in a COVID-19 safety violation. However, **all** consultations and inspections by L&I's Division of Occupational Safety and Health (DOSH) review compliance with COVID-19-related health and safety regulations. Since March 2020, DOSH has completed **11,038** on-site inspections and **4,506** consultations. Previous versions of this report included additional Mask & Safe Start enforcement counts; between 6/1/2020 and 6/30/2021, **13,146** COVID-19-related spot checks were conducted, and **3,370** warning letters were issued.
