

# Skill Enhancement Training (SET) Outcome – EVOC Template

For vocational provider use only --- do not send to claim file

Vocational Rehabilitation Counselors (VRCs) should submit an EVOC:

- When a SET outcome is determined, OR
- Within 30 days of course end date.

The VRC requests SET outcomes directly from the worker, not the schools or training providers. If a worker is unresponsive or chooses not to disclose, the VRC submits an EVOC with a result of “n/a.”

A worker’s success and experience in SET is unique. Additional reviews, such as vocational outcomes and closing reports, provide deeper insight about the worker.

Please **copy** and **paste** the entire text below, including the *Important Reminder for Reader* section, onto a blank EVOC. Include your corresponding responses.

What is the title of the SET course attempted? *(Required)*

What was the approval date? *(Required)*

What were the results of the course (pass/fail/or n/a\*)? *(Required)*

Please share any feedback about the worker’s overall experience with the course, and any additional information that may be important to know.

**\*Important Reminder for Reader:**

*SET is a voluntary incentive. The outcome of a course may not reflect the usefulness of that course. Various factors can influence outcomes. SET opportunities are based on the needs of the worker.*
