**MEMO TO WSATC  
IN SUPPORT OF ROB'S ELECTRIC REVISED VARIANCE**

**To:** Mark Riker, Chair, WSATC  
**From:** Carolyn Lake, Attorney For Rob's Electric Apprenticeship and Training Program # 2262  
**Re:** Review of Variance for Apprentice/ Trainee Mixing & Request for Revised Variance

**Summary of Request:** Request for the Electrical Sub-Committee to delete the following conditions from the WSATC's October 2023 - Variance addressing Mix of Apprentices and Trainees.

- In case of layoff due to lack of work, trainees shall be laid off before apprentices.
- The ratio of Journey Level worker to apprentice to trainee shall be 2 to 2 to 1.

**Background & Analysis.** Rob's Electric Apprenticeship and Training Program # 2262 was approved by the Washington State Apprenticeship and Training Council ("WSATC") and is in its first year of provisional status. An issue arose thereafter as the exemptions allowed in ESSB 5320 required accommodation in the current rules to allow apprentices and trainees to work under the same employer. The legislature recognized the challenge and urged the WSATC to create a solution.

The WSATC responded and encouraged Apprenticeship Programs to apply for a variance to allow vested trainees to work alongside apprentices. At the time the Council issued its invitation to apply for variance, there was no mention of any conditions to be attached to the variance.

At the October 18, 2023, WSATC meeting, the Council voted to approve a variance process, for which individual programs could apply. The Council voted to include various conditions to be met as part of the variance process. The conditions were announced verbally but had not yet put to writing.

Rob's Electric's variance application was considered at that same quarterly Council meeting. The Council approved the variance.

On October 30, 2023, the Apprenticeship Section at Labor and Industries issued its Memo attached as **Exhibit 1**, in which conditions for variance approval are stated ("Variance Conditions"). At least two of the variance conditions are burdensome.

At the January WSATC meeting, Rob's Electric submitted a variance request to the WSATC to delete the above 2 Variance Conditions. The two conditions should be deleted for all the reasons explained in the Memo to Council from The Associated Builders and Contractors of Western Washington dated November 8, 2023, attached as **Exhibit 2**.

- Enabling companies to employ both trainees (temporarily) and apprentices over the next three years is the compromise the legislature intended by ESSB 5320.
- Deleting the two offending conditions will carry out the seamless implementation of both 6126 and 5320 for all workers.
- Failing to delete the two Variance condition hurts the apprentice development as employers will likely choose to delay implementation of an apprenticeship program, for the reasons stated.
- Failing to delete the two conditions adversely affects the very employees that the legislature was intending to help.

Also, at the January WSATC meeting, the WSATC referred the variance issue to the Electrical Subcommittee. Rob's Electric has revised its Variance request to be in better alignment with the variance issue as referred to the Electrical Subcommittee.

Thank you.

TO: Washington State Registered Apprenticeship Sponsors for Electrical 01 Occupations  
FROM: Apprenticeship Section at Labor and Industries  
DATE: 10/30/2023  
SUBJECT: Recently Announced Variance Request for Electrical Sponsors for the Temporary Allowance of Mixing Apprentices with Trainees.

Following the announcement and recent actions from the Washington State Apprenticeship and Training Council (WSATC), effective October 19, 2023 all state registered electrical apprenticeship programs training in the General Journey Level (01) Electrical occupation will be able to request a revision of standards to accommodate a temporary variance that would allow approved employers of 01 registered apprentices to also utilize electrical trainees on the same jobsite when meeting the requirements identified in Substitute Senate Bill (SSB) 5320. This Memo will serve as additional guidance in the request process including the approved stipulations from the WSATC.

**This Temporary Variance will only be valid through June 30, 2026.**

Any registered electrical apprenticeship program may submit a written request for revision of standards to apply for this Temporary Variance to allow apprentices and trainees to work together for the same employer when the following stipulations are met and followed;

- A temporary limited variance may be approved from October 19, 2023 until June 30, 2026.
- The temporary variance may be considered upon written application to the WSATC for the temporary variance.
- The written application must be program specific and come from the Apprenticeship Program registered with the WSATC with whom the employer has a Training Agent agreement.
- The WSATC shall consider temporary variance requests at their quarterly meetings.
- In case of layoff due to lack of work, trainees shall be laid off before apprentices.
- The ratio of Journey Level worker to apprentice remains 1 to 1.

- The ratio of Journey Level worker to apprentice to trainee shall be 2 to 2 to 1.
- Apprentices and Trainees are allowed to work on the same project.
- This temporary variance approval expires in its entirety on June 30, 2026

None of the above stipulations are an exemption from following any Electrical Certificate requirements found in RCW19.28.161

In order to apply for this variance, programs/employers will need to have at minimum two (2) active Apprentices registered in the 01 electrical occupation for every 1 trainee they plan to use. (See stipulation above regarding ratio of Journey level worker to apprentice to trainee)

Any program wishing to apply for the above variance will need to work with their assigned Apprenticeship Consultant to submit their request for revision of standards for Council consideration.

Any questions regarding the above stipulations, please contact;

November 8, 2023

Members of the Washington State Apprenticeship and Training Council,

The Associated Builders and Contractors of Western Washington appreciates the recent efforts of the Washington State Apprenticeship and Training Council (Council) to accommodate a temporary variance. Allowing approved employers of 01 registered apprentices to utilize electrical trainees on the same jobsite as apprentices is paramount to a natural transition to the new State apprenticeship laws.

We write to bring to the Council's attention our significant concerns regarding the stipulations associated with this variance. As outlined in the Apprenticeship Section at Labor and Industries' memo dated 10/30/2023, the stipulations requiring trainees to be laid off before apprentices in case of lack of work and the mandating of a 2:2:1 ratio of journey level workers to apprentices to trainees raise serious concerns within our construction community.

The stipulation mandating trainees to be laid off before apprentices creates a counterproductive scenario for businesses and employers, which trickles down to workers as well. It could force employers to terminate experienced trainees, who are close to completing their certification hours, over an inexperienced apprentice. This decision seems contrary to the objective of promoting a skilled workforce and appears detrimental to employees who may have worked for a firm for years. In addition, this stipulation is counterproductive to encouraging small and medium sized firms to hire apprentices. They will resist if a work downturn requires them to fire a long-term employee. These small to mid-sized companies make up the majority of our State's workforce. Their involvement is necessary to the long term success of the 01 Apprenticeship law.

The requirement of a fixed 2:2:1 ratio fails to consider the diverse circumstances of businesses, especially small to mid-sized enterprises. This rigidity could lead to impractical situations where employers are compelled to hire additional apprentices or dismiss highly qualified trainees, irrespective of their company's size and ability to accommodate extra employees. This approach overlooks the practical challenges faced by businesses and may inadvertently lead to job losses for trainees who were exempted under ESSB 5320. The requirement to have two apprentices before hiring a trainee also does not recognize the necessary employment conditions for small firms. They may only need one apprentice for the work they are doing.

We firmly believe these stipulations extend beyond the Council's authority by dictating hiring and firing decisions for individual private companies. The conditions also frustrate the legislature's intent in passing ESSB 5320. Administrative processes should facilitate State statutes, not frustrate them. We urge the Council to reconsider these stipulations and remove them from the variance. By doing so, the Council will enable the seamless implementation of both SSB 6126 and ESSB 5320, aligning with the legislature's

intended purpose of fostering employment and training opportunities without disrupting ongoing projects or hindering businesses.

We urge the Council to reconsider these specific stipulations in light of their potential adverse effects on businesses and employees. We believe a more flexible and pragmatic approach would better serve the industry and contribute to the long-term success of our workforce. We believe removal of these stipulations will meet the intent of the variance, the implementation of SSB 6126 and ESSB 5320 would be better served, and our electrical contractors will be better able to achieve compliance with the new laws.

Thank you for your time and consideration. We look forward to your response and remain willing to collaborate to find solutions that benefit all stakeholders in the electrical industry in Washington State.

Thank you,

## Memo To WSATC In Support of Work Processes Forms.

**To: Mark Riker, Chair, WSATC**

**From: Carolyn Lake, Attorney For Rob's Electric Apprenticeship and Training Program # 2262**

**Re: Word Revision to Section VIII. A, "Work Processes" to Clarify and be Consistent with Actual Licensing Requirements of RCW 19.28.191(1)(c)(i).**

### Summary of Request:

Request for the Electrical Sub-Committee to Clarify Section VIII.A, "Work Processes" wording so that its plainly consistent with RCW 19.28.191(1)(c)(i).

### Background:

Rob's Electric Apprenticeship and Training Program # 2262 ("Rob's") was approved by the Washington State Apprenticeship and Training Council ("WSATC") and is in its first year of provisional status. Rob's requested a revision to the wording of the Department of Labor and Industries ("Department's") "Work Processes" boiler plate language in the Apprentice Standards, via Request for Variance which appeared on the WSATC's October 2023 and January 2024. After an Executive Session discussion at WSATC's January meeting, the Council forwarded the request to the Electrical Subcommittee for review and recommendation.

### Analysis:

Rob's requests a very simple language changes be made to the Electrical 02 Apprenticeship Standards Template at Section VIII.A, when describing Work Processes necessary to qualify to sit for 01 Electrical examination, as follows:

1. To remove the word "public" and
2. To clarify that work qualifying commercial work includes commercial installations other than just public commercial, school and hospital buildings, as the current boiler plate language states

The change would also bring the Work Processes language into alignment with the licensing standard of RCW 19.28.191(1)(c)(i) below, which has no such restriction.<sup>1</sup>

The requested clarifying changes are shown on page 2. Thank you.

## INTRODUCTION

This document is an apprenticeship program standard. Apprenticeship program standards govern how an apprenticeship works and have specific requirements. This document will explain the requirements.

The director of the Department of Labor and Industries (L&I) appoints the Washington State Apprenticeship and Training Council (WSATC) to regulate apprenticeship program standards. The director appoints and deputizes an assistant director to be known as the supervisor of apprenticeship who oversees administrative functions through the apprenticeship section at the department.

The WSATC is the sole regulatory body for apprenticeship standards in Washington. It approves, administers, and enforces apprenticeship standards, and recognizes apprentices when either registered with L&I's apprenticeship section, or under the terms and conditions of a reciprocal agreement. WSATC also must approve any changes to apprenticeship program standards.

Apprenticeship programs have sponsors. A sponsor operates an apprenticeship program and declares their purpose and policy herein to establish an organized system of registered apprenticeship education and training. The sponsor recognizes WSATC authority to regulate and will submit a revision request to the WSATC when making changes to an apprenticeship program standard.

Apprenticeships are governed by federal law (29 U.S.C 50), federal regulations (29 CFR Part 29 & 30), state law (49.04 RCW) and administrative rules (WAC 296-05). These standards conform to all of the above and are read together with federal and state laws and rules

Standards are changed with WSATC approval. Changes are binding on apprentices, sponsors, training agents, and anyone else working under an agreement governed by the standards. Sponsors may have to maintain additional information as supplemental to these standards. When a standard is changed, sponsors are required to notify apprentices and training agents. If changes in federal or state law make any part of these standards illegal, the remaining parts are still valid and remain in force. Only the part made illegal by changes in law is invalid. L&I and the WSATC may cooperate to make corrections to the standards if necessary to administer the standards.

Sections of these standards identified as bold "**insert text**" fields are specific to the individual program standards and may be modified by a sponsor submitting a revised standard for approval by the WSATC. All other sections of these standards are boilerplate and may only be modified by the WSATC. See WAC 296-05-003 for the definitions necessary for use with these standards.

\*All sponsor inserted language must meet or exceed minimum requirements as established by the appropriate occupations outlined in these standards for each occupation. Minimum Guideline requirements have been *emboldened, italicized* and captured in bordering and may not be revised.

### C. Discrimination Complaints:

Any apprentice or applicant for apprenticeship who believes they have been discriminated against may file a complaint with the supervisor of apprenticeship (WAC 296-05-443).

## ROB'S ELECTRIC INC. APPRENTICESHIP & TRAINING

### IV. TERM OF APPRENTICESHIP:

The term of apprenticeship for an individual apprentice may be measured through the completion of the industry standard for on-the-job learning (at least two thousand hours) (time-based approach), the attainment of competency (competency-based approach), or a blend of the time-based and competency-based approaches (hybrid approach) [WAC 296-05-015].

<p><b>A. <u>General Electrician (01)</u></b> <b><i>8000 Hours of reasonably continuous employment</i></b></p>
-------------------------------------------------------------------------------------------------------------------

### V. INITIAL PROBATIONARY PERIOD:

An initial probationary period applies to all apprentices, unless the apprentice has transferred from another program. During an initial probationary period, an apprentice can be discharged without appeal rights. An initial probationary period is stated in hours or competency steps of employment. The initial probationary period is not reduced by advanced credit or standing. During an initial probationary period, apprentices receive full credit for hours and competency steps toward completion of their apprenticeship. Transferred apprentices are not subject to additional initial probationary periods [WAC 296-05-003].

The initial probationary period is [WAC 296-05-015(22)]:

- A. The period following the apprentice's registration into the program. An initial probationary period must not be longer than twenty percent of the term of the entire apprenticeship, or longer than a year from the date the apprenticeship is registered. The WSATC can grant exemptions for longer initial probationary periods if required by law.
- B. The period in which the WSATC or the supervisor of apprenticeship may terminate an apprenticeship agreement at the written request by any affected party. The sponsor or the apprentice may terminate the agreement without a hearing or stated cause. An appeal process is not available to apprentices in their initial probationary period.

C.

### VI. RATIO OF APPRENTICES TO JOURNEY LEVEL WORKERS

Supervision is the necessary education, assistance, and control provided by a journey-level employee on the same job site at least seventy-five percent of each working day, unless otherwise approved by the WSATC. Sponsors ensure apprentices are supervised by competent, qualified journey-level employees. Journey level-employees are responsible for the work apprentices perform, in order to promote the safety, health, and education of the apprentice.

- A. The journey-level employee must be of the same apprenticeable occupation as the apprentice they are supervising unless as noted above or otherwise allowed by the Revised Code of Washington (RCW) or the Washington Administrative Code (WAC) and approved by the WSATC.
- B. The numeric ratio of apprentices to journey-level employees may not exceed one apprentice per journey-level worker [WAC 296-05-015(5)].
- C. Apprentices will work the same hours as journey-level workers, except when such hours may interfere with related/supplemental instruction.
- D. Any variance to the rules and/or policies stated in this section must be approved by the WSATC.
- E. The ratio must be described in a specific and clear manner, as to the application in terms of job site, work group, department or plant:

***1. General Electrician (01)***

***The employer is allowed a ratio of one (1) apprentice to one (1) journey-level worker per job site, unless one of the following conditions is met:***

***No more than two apprentices for every journey level Residential (02) or Limited Energy (06) specialty electrician when working in that electrician's specialty.***

***Apprentices with a minimum of 7,000 hours of OJT will be allowed to work without the direct supervision of a journey-level person provided that they have been issued a six- month, nonrenewable, unsupervised electrical training certificate by the Washington State Labor and Industries Electrical Section. Such apprentices will not be counted for the purposes of a ratio calculation nor be allowed to supervise other apprentices.***

***Supervision and Ratio of apprentices registered in the above occupations shall follow requirements established under RCW 19.28.161.***

**ROB'S ELECTRIC INC. APPRENTICESHIP & TRAINING**

2. Concurrent employment of Apprentices and Trainees shall be allowed per variance stipulations approved by the WSATC on October 19, 2023, with the exception that conditions number 3 and 5 below do not apply. Variance shall expire on June 30, 2026. Conditions include:

1. ~~In case of layoff due to lack of work, trainees shall be laid off before apprentices.~~
2. The ratio of Journey Level worker to apprentice remains 1 to 1.
3. ~~The ratio of apprentices to trainees shall be 2-1 (two apprentices to one trainee).~~
4. Apprentices and Trainees are allowed to work on the same project.
5. Electrical Certificate requirements as listed in RCW 19.28.161 shall apply.

(Revised Variance granted \_\_\_\_\_, expires 6/30/2026)

**VII. APPRENTICE WAGES AND WAGE PROGRESSION:**

- A. Apprentices must be paid at least Washington’s minimum wage, unless a local ordinance or a collective bargaining agreement require a higher wage. Apprentices must be paid according to a progressively increasing wage scale. The wage scale for apprentices is based on the specified journey-level wage for their occupation. Wage increases are based on hours worked or competencies attained. The sponsor determines wage increases. Sponsors must submit the journey-level wage at least annually or whenever changed to the department as an addendum to these standards. Journey-level wage reports may be submitted on a form provided by the department. Apprentices and others should contact the sponsor or the Department for the most recent Journey-level wage rate.
- B. Sponsors can grant advanced standing, and grant a wage increase, when apprentices demonstrate abilities and mastery of their occupation. When advanced standing is granted, the sponsor notifies the employer/training agent of the wage increase the apprenticeship program standard requires.
- C. Wage Progression Schedules

<b><u>1. General Electrician (01)</u></b>
-------------------------------------------

Step	Hour Range or competency step	Percentage of journey-level wage rate
1	0000 – 1000 Hours	40%
2	1001 – 2000 Hours	45%
3	2001 – 3000 Hours	50%
4	3001 – 4000 Hours	55%
5	4001 – 5000 Hours	65%
6	5001 – 6000 Hours	75%
7	6001 – 7000 Hours	80%

**ROB'S ELECTRIC INC. APPRENTICESHIP & TRAINING**

8	7001 – 8000 Hours	85%
