General information: About MARFS and this manual

What is MARFS?

The Medical Aid Rules and Fee Schedules (MARFS) is a package of information about how workers’ compensation insurers in Washington State pay for healthcare and vocational services provided to injured workers and crime victims.

MARFS includes three things:
- **Medical aid rules** published in the Washington Administrative Codes (WACs) for industrial insurance (workers’ compensation),
- **Fee schedules** for healthcare and vocational professional provider and facility services, and
- This **payment policies manual**.

What is in this manual?

This manual contains 36 chapters, of payment policies for healthcare and vocational services provided by individual professional providers or facilities.

A payment policy for a specific service can include information about:
- Prior authorization,
- Who must perform specific services to qualify for payment,
- Services that can be billed or that aren’t covered,
- Requirements for billing,
- Payment limits, or
- Other information, such as payment methods, background information on coverage decisions, unique requirements, and examples to illustrate billing procedures.

**Note:** Not every payment policy includes all of these elements. When one of the above elements isn’t included, it is because the information isn’t applicable. When the elements do appear, they are consistently presented in the same order.
Beyond this introductory chapter, in this manual you will find:

- One chapter on **general policies and information** for all providers,
- 29 chapters for **professional services**, which contain payment policies for individual professional healthcare and vocational providers, and interpreters, and
- five chapters for **facility services**, which contain payment policies for healthcare facilities.

**Note:** Within each of the services sections, the chapters appear alphabetically.

› **What part of MARFS isn’t in this manual?**

This manual doesn’t include:

- **Fee schedules**, which contain the maximum fees (payment amounts) for the authorized billing codes providers use to bill for services,
- The **field key**, which explains the column headings and abbreviations that appear in the fee schedules,
- **Medical aid rules**, which are the L&I specific WACs, or
- **Updates and Corrections**, which contains any changes to policies and fees that occur between annual publications of this manual (see more about these changes below under: *How do I know if a policy is current?*).

**Links:** The fee schedules (including the field key) are available on L&I’s website, at [http://www.lni.wa.gov/FeeSchedules](http://www.lni.wa.gov/FeeSchedules)

How do I know if a policy is current?

The policies in this manual are updated and published at the start of each fiscal year (July 1), and are effective for services provided on or after that date (until the next publication of this manual).

Sometimes changes do occur between publications of this manual. Such changes are communicated to providers through L&I’s Medical Provider News email listserv and are also documented on an Updates & Corrections page on L&I’s website.

For information about how to join the email listserv, see the “General information: All payment policies and fee schedules” section of: Chapter 2: Information for All Providers.

How is each chapter organized?

Payment policies for general types of services are organized into individual chapters. Each chapter contains:

- A title page with a Table of contents for the chapter,
- Followed by payment policies for specific services, or general information, and
- At the end of the chapter, a table with links to related topics.

Some chapters also include definitions of key terms, including descriptions of billing code modifiers. When a chapter does contain definitions, they appear immediately following the Table of contents.

Visual cues

Visual cues and icons appear consistently throughout the payment policies manual. The following is a list of these icons and visual cues, with descriptions of how they are used:
