Definitions

- ▶ **Body areas:** For IMEs, the following **body areas** are recognized:

- Head, including the face,
- Neck,
- Chest, including breasts and axilla,
- Abdomen,
- Genitalia, groin, buttock,
- Back, *and*
- Each extremity.

Note: Each extremity is counted **once per extremity examined**, when determining standard or complex codes.

- ▶ **Bundled codes:** Are procedure codes that are not separately payable because they are accounted for and included in the payment of other procedure codes and services.

Link: For the legal definition of **Bundled codes**, see: [WAC 296-20-01002](#).

- ▶ **By report (BR):** A code listed in the fee schedule as BR doesn't have an established fee because the service is too unusual, variable, or new. When billing for the code, the provider must provide a report that defines or describes the services or procedures. **The insurer will determine an appropriate fee based on the report.**

Link: For the legal definition of **By report (BR)**, see [WAC 296-20-01002](#).

- ▶ **Local code modifier mentioned in this chapter:**

-7N X-rays and laboratory services in conjunction with an IME

When X-rays, laboratory, neuropsychological testing and other diagnostic tests are requested for the IME, identify the service(s) by adding the **modifier – 7N** to the usual procedure number.

-26 Professional component

Certain procedures are a combination of the professional (**—26**) and technical (**—TC**) components. This modifier should be used when only the professional component is performed. When a global service is performed, the **—26** modifier can't be used.

Link: Procedure codes are listed in the L&I Professional Services Fee Schedules, Radiology and Laboratory Sections, available at: <https://www.lni.wa.gov/patient-care/billing-payments/fee-schedules-and-payment-policies/>.

▶ **Organ systems:** For IMEs, the following **organ systems** are recognized:

- Eyes,
- Ears, nose, mouth, and throat,
- Cardiovascular,
- Gastrointestinal,
- Genitourinary,
- Respiratory,
- Musculoskeletal,
- Skin,
- Neurologic,
- Psychiatric, *and*
- Hematologic/ Lymphatic/ Immunologic.

Payment policy: Independent medical exams (IMEs)

▶ Who must perform an IME to qualify for payment

Only **department approved** IME Providers with an IME provider account number can bill IME codes.

► Requirements for billing

State Fund (L&I) provider account number requirements for IMEs

For IMEs, examiners need one IME provider account number for each payee they wish to designate.

An IME examiner who isn't working through any IME firms will need just one IME number, which will also serve as their payee number.

Billing for IME's

| Use only the IME examiner's provider account number/NPI for these CPT® or local billing codes (see code description above for more details): | | | The following codes may be billed by the IME firm or the IME examiner, depending on who renders the service. (see code description above for more details) |
|--|-------|-------------|--|
| 1104M | 1120M | 1135M | 1124M |
| 1105M | 1123M | 1136M | 1132M |
| 1108M | 1125M | 1137M | 1133M |
| 1109M | 1128M | 1138M | |
| 1111M | 1129M | 1028M | |
| 1112M | 1130M | 1038M | |
| 1118M | 1134M | 1066M | |
| | | 99441-99443 | |

Bills for testing or other services performed in conjunction with an IME must be submitted by the provider who rendered the service ([WAC 296-20-125\(3\)\(o\)](#)). These services include:

- X-ray, diagnostic laboratory tests in conjunction with IME (append modifier **-26** and **-7N**).
- Neuropsychological evaluations and testing CPT® codes – **90791, 96101, 96102, 96118, 96119**. (For more detailed information on neuropsychological services, refer to [Chapter 17: Mental Health Services](#).)
- Functional Capacity Evaluations (FCE) – **1045M**

Standard and complex coding

The exam should be sufficient to achieve the purpose and reason the exam was requested.

Choose the code based on the number of body areas or organ systems that need to be examined to fully evaluate the accepted condition(s) or the condition(s) contended as work related.

Be sure the report documents the relationship of the areas examined to the accepted or contended conditions.

The definitions of **body areas** and **organ systems** from the Current Procedural Terminology (CPT®) book must be used to distinguish between standard and complex IMEs.

Note: See definitions of **Body areas** and **organ systems** in Definitions at the beginning of this chapter.

IMEs conducted at a correctional facility are payable at three times the standard rate (1108M or 1109M) of an IME, if the examiner travels to the facility. Bill using **1124M**. Examiners may also bill travel for IMEs conducted at a correctional facility; bill using **1125M**, which requires prior authorization.

► Payment limits

Limit on total scheduled exams per day

L&I has placed a limit of 12 independent medical examinations scheduled per examiner per day. For psychiatrist examiners, the limit is 8 per day. A psychiatric examiner must spend at least 60 minutes of face-to-face time with the worker. This limit includes IMEs scheduled for State Fund and self-insured claims. The applicable codes include:

- **1108M** IME, standard exam – 1-3 body areas or organ systems,
- **1109M** IME, complex exam – 4 or more body areas or organ systems,
- **1111M** IME, no show fee, per examiner,
- **1112M** IME, additional examiner for IME,
- **1118M** IME by psychiatrist,
- **1120M** IME, no show fee, psychiatrist,
- **1122M** Impairment rating by an approved pain program,
- **1130M** IME, terminated exam,
- **1134M**, late cancellation fee,
- **1135M**, late cancellation fee, psychiatrist,
- **1136M**, IME, two claims included in evaluation,

- **1137M**, IME, three claims included in evaluation, *and*
- **1138M**, IME four or more claims included in evaluation.

Payment policy: Radiology reporting requirements for IMEs

► Requirements for billing

Documentation for the professional interpretation of radiology procedures is required for all professional component billing. When billing for the professional component of radiology services, bill using **modifier –26** and **modifier –7N**.

Note: Documentation refers to charting of justification, findings, diagnoses, and test result integration, including a comparison between repeat radiology studies when applicable.

IME providers who read imaging studies they order in relation to an IME, or reinterpret imaging studies previously performed, are required to document their findings within the IME report. Each imaging study must be separately documented in its own section and include all of the following:

- Date the imaging study was performed, *and*
- The anatomic location of the procedure and type of procedure (lumbar spine plain films, abdomen CT, cervical spine MRI, etc.), *and*
- Specific views (AP, lateral, oblique, weight bearing, axial, sagittal, coronal, with or without contrast, etc., as applicable), *and*
- When ordering imaging studies, a brief sentence describing the reason for the study, such as:
 - “Lower back pain; evaluate for degenerative changes and rule out leg length inequality.”
 - “Neck pain radiating to upper extremity; rule out disc protrusion,” *and*
- Description of, or listing of, imaging findings:
 - **Advanced imaging reports** should follow generally accepted standards to include relevant findings related to the particular type of study, *and*
 - Radiology **reports on plain films of skeletal structures** should include evaluation of osseous density and contours, important postural/mechanical considerations, assessment of any joint space abnormalities, and assessment of any important abnormal soft tissue findings, *and*

- Radiology **reports on chest plain films** should include assessment of lung fields, bronchovascular markings, apices, tracheal air shadow, mediastinal and hilar contours, cardiovascular contours, costophrenic recesses, any abnormalities below the diaphragm, and assessment of any important osseous abnormalities shown incidentally (ribs, clavicles, scapulae, proximal humeri, spine), *and*
- Imaging impressions, which summarize and provide significance for the imaging findings described in the body of the IME report. If the same imaging study was performed on multiple dates of service, the provider must document a comparison between the studies, in sequential order, noting any significant changes that occurred. For example:
 - For a neck comparison where there is a difference between the original imaging study and the most recent findings, the impression could be: “A comparison of this recent study from 7/1/2019 is made to the study of 5/1/2018. 5/1/2018 which noted narrowing of the disc space at C-5 with bony protuberance at right facet causing impingement. New image from 7/1/2019 shows bony protuberance has grown 5mm and is contributing to increased impingement of the nerve root. This appears to be a continuation of a natural growth process.”

In addition to the above information, when reinterpreting imaging studies, the IME provider must document whether they are or aren't in agreement with original interpretation of the imaging study.

Note: Documentation such as "X-rays are negative" or "X-rays are normal" don't fulfill the reporting requirements described in this section and the insurer **won't pay** for the professional component in these circumstances.

▶ Payment limits

Reinterpretation of imaging studies

Reinterpretation of imaging studies may only be billed once per panel exam. The reinterpretation is only payable for studies related to the accepted or contended condition.

In addition, services must be billed with the correct CPT® code for the specific imaging study reinterpreted, along with **modifier -26** and **modifier -7N**.

Example of how to bill for IME services including reinterpretation of imaging studies

The following example demonstrates how to bill when IME providers perform a reinterpretation of imaging studies. This example isn't reflective of the documentation requirements for an IME.

- **Example:** A panel IME is performed on 7/1/19 meeting the documentation criteria for a complex IME. The IME providers review the following imaging studies, all related to the accepted conditions:

- 1 – 3 view knee x-ray performed 6/1/17
- 2 – 2 view shoulder x-rays performed 6/1/17 and 8/2/18
- 1 – Shoulder MRI without contrast

The correct billing for the services is:

Examiner 1

| Line item | Procedure code (and modifiers) | Number of Units |
|-----------|--------------------------------|-----------------|
| 1 | 1109M | 1 |
| 2 | CPT® 73562-26-7N | 1 |
| 3 | CPT® 73030-26-7N | 2 |
| 4 | CPT® 73221-26-7N | 1 |

Examiner 2

| Line item | Procedure code (and modifiers) | Number of Units |
|-----------|--------------------------------|-----------------|
| 1 | 1126M | 1 |

Note: Reinterpretation is only payable once per panel exam.
