12806 Gateway Dr S Tukwila, WA 98168
January 14, 2014 9:00 am to 12:00 pm

Welcome and Introductions

SHIP Grant update (standing agenda item)

- Any SHIP grant updates
 - 2 SHIP grants WSHA Susan Metz and Jeff Rochon Next session is in May for three months till July Please call Jennifer Jellison

Upcoming conferences and training (standing agenda item)

- Committee Members
 - ASHP Conference and the WA State role nationally huge interest. There were a larger number of people that called in. CA will probably be ahead of us. NC and CA are working of this and should be soon. It was talked about the impact of the rule. Non Chem departments were impacted by WA state rule. Publication Here is the link for the American Society of Health-System Pharmacist (ASHP) lecture that Alex mentioned at today's Labor and Industries meeting. Interested parties can still log-on to view the archived "on-demand" version of the live presentation. <http://www.ashpadvantagemedia.com/ensuringsafety/>
 - Please post for the Hazardous Waste presentations

March 2014

2014 New Drugs New Laws Seattle
Mar 02 Sunday [University of Washington \(map\)](#) Register
8:00AM - 5:15PM

April 2014

2014 New Drugs New Laws Spokane
Apr 06 Sunday [Washington State University \(map\)](#) Register
8:00AM - 5:15PM

- WSNA had a training for students that are studying to be both Registered nurses and attorneys. They showed the video from channel 9 and the specifics of the rule.

Maria Cantrell talked about the how they got it in to place. Alan talked about how WA has developed safety and health rules and WISHA occupational rules history. 15 people were in the room and there were about the same on the web. It was a very interesting presentation. Employer employee groups.

- AIHce 2014 conference Hazardous Drugs will be presented Alan Jones May 31- June 5, San Antonio, TX
- Jon Britell – WSNA conference, March 14th in Seattle. Labor and Industries will a booth.
- Health Care committee for Gov conference. Special section for doctors. John Furman will do a presentation in Spokane. If it goes well we will do it again in Tacoma the next year. Maybe we can do the algorithm.

DOSH Update (standing agenda item)

- Jeff Killip
 - Reviewed 2 handouts (biweekly and monthly rule summaries). Regarding Global Harmonization (GH), will incorporate the GH rule into the Ag rule. For penalty calculation rulemaking, will conduct additional stakeholdering to obtain stakeholder input. Staggered effective dates on the Hazardous Drugs. eRules will reformat all DOSH rules so they can be easily accessed and navigated via mobile devices.

Subcommittees

- Jeff Rochon
 - Algorithm update
We are getting closer to cleaning up. Will hire a designer to make it look better.
 - Establish a subcommittee for compliance and interpretation FAQ's -20 minutes
March 2 WSPSA
 - Ship Grant for pharmacy specific Hazardous Drug looking outside of NIOSH to see what is best practices. What is the better decision making process? We are a little behind but making great progress.

PhRMA – upstream measures in reducing exposures this is about packaging. New algorithm went to the group and is being reviewed. We will give another chance to discuss at the next meeting. This rule will give new opportunities for marketing. There should be an invitation to the Pharma organization outreach, if there is a new standard of packaging. We need to bridge the gap.

Next meeting April 8 should we have someone come to this meeting? Collection of human waste is important in Rhode Island. Rhode Island is adopting a rule requiring collecting human waste. Maybe we should include someone from DOE. We should be addressing employee's exposure.

FAQ

- The subcommittee will have Feb 10th 1pm at L&I Tumwater S117 Alex and Bart want to be there. Try to have a summer deadline. We can use emails to go back in forth.
- Next meetings will be Web meeting.
