

Hazardous Drug Advisory Committee Meeting
Tuesday, November 14th, 2012
9:00AM to 12:00PM,
Washington State Pharmacy Association Office
411 Williams Ave South
Renton, WA 98057-2748

Topic	Presenter
Welcome and Introductions	Alan Lundeen
Subcommittees update: <ul style="list-style-type: none"> • Model programs • NIOSH research 	Jeff Rochon Lisa Parshley
<p>Model programs</p> <p>We have 14 entities with this group. To help us look at what is the best way to deal with this. How do we get our arms around this? Some groups have gone line by line through the rule. They are trying to get permission to share with the public their processes. We would like to get a decision tree together so we would know where the new meds are put into play. The hope is that we meet after this meeting. We should have more information after that. We have great knowledge at the table and are addressing the issues. We had a very productive meeting.</p> <p>Jeff and Alex presented to the Pharmacy Association “Where we are at?” We are in a holding pattern. We will have a report of the line by line of the rule.</p> <p>If anyone would like to be part of these meetings please let Jeff Rochon know.</p> <p>Comments:</p> <p>Some of us thought it would be best to tier by practices.</p> <p>We haven’t thrown anything out. We are collecting information.</p> <p>I would like to see what the risk of exposure is.</p> <p>There are concerns on how this goes. I don’t see how the community pharmacies can do some of these things. We want to make sure that all entities are addressed.</p> <p>What happens when a new drug comes out?</p> <p>These thoughts have been done by many of the model program participants. There are several variances and we are trying to find out what are our similarities.</p> <p>The issues are varied and we need to find out what the vets are doing.</p> <p>Model programs Subcommittee is dial in.</p> <p>Let’s put the Model programs subcommittee meeting times on the web page.</p> <p>Early December we will be meeting with the vets</p> <p>We have growing concerns about the timeline. We are looking at training programs with Education and Outreach.</p> <p>The first meeting is going to be two hours and more of a strategic meeting.</p> <p>NIOSH research</p> <p>NIOSH shared with me a couple of slides on the algorithm. The drug will show up on the list.</p> <ul style="list-style-type: none"> • NIOSH Criteria for Hazardous Drugs 	

- Any drug identified by at least one of the following six characteristics:
 - Carcinogenicity
 - Teratogenicity or developmental toxicity
 - Reproductive toxicity in humans
 - Organ toxicity at low doses in humans (<10 mg/day) or animals (<1mg/kg/day)
 - Genotoxicity
 - New drugs that mimic existing hazardous drugs in structure or toxicity
- (NIOSH, 2004)

NIOSH- will send email Tom Conner NIOSH. Will be part of the NIOSH intent subcommittee. What is the data on how the drugs were chosen? Inhalation exposure, crushing and a generic approach. Retail pharmacist prospective. What protective equipment? If you are counting out the pills there is dust from the pills. Gloves would be the maxim of protection that is needed? We will put more guidance in our document?

What are your thoughts about control banding?

Antineoplastic drug would fall into the low band. Would this be from the MSDS? MSDS isn't very useful. Not a good source of information. We look at the information in the drug package insert. We try to look at all of this information.

<p>DOSH Compliance Update</p> <ul style="list-style-type: none"> • LNI update on federal interest or interest from other states (if any). • LNI update on their proposed path forward (if there have been any changes). Update on activity at the HD website and questions fielded from Stakeholders. 	<p>Alan Lundeen</p>
<p>We met with Karen and Alex I have been working with the statewide compliance manager to define how the rule will be enforced.</p>	
<p>Public comments</p> <ul style="list-style-type: none"> • Open forum for stakeholders to voice questions/concerns. 	<p>All</p>
<p>The picture on the website has the wrong PPE. We are working with the web staff to find out how many are hitting the website. We would like everyone to start looking to the web page for updates.</p> <p>What kind of support can we get from NIOSH? Employee rep we would like to get more representatives. We could have more employee reps. Who are you looking for? We are looking for three more employee reps. Professional Practice Coordinator, Infusion Services, Seattle Cancer Care Alliance volunteered to be on the committee.</p> <p>Nurse on the pill line for the department or a pharmacist. Let's not limit on this for now.</p>	
<p>Chair comments - Employee representative</p> <ul style="list-style-type: none"> • discuss activities within our stakeholder groups. 	<p>Karen Bowman</p>
<p>Chair comments - Large Hospital employer</p>	<p>Alex Truchot</p>

representative <ul style="list-style-type: none"> • discuss activities within our stakeholder groups. • discuss the meeting we had with Alan and Pamela last week. 	
Recap Review assignments Review decisions	Alan Lundeen
<p>We are entrenched in this it is a slow way to get the traction on this. I would like to address what this means to L&I and the group. What direction does the subcommittee want to go? We will continue to work on this. We would like to make sure we have some model programs.</p> <p>We won't have any programs yet. We want to make sure if we have anything to present it. We don't want to be redundant so please come to the subcommittee.</p> <p>Lessons learned.</p> <p>Comments: Recommend that Daryl Bessey of CRI unit is part of this group. Lisa will report about the NIOSH and University of Michigan information. December 4th 5th or 6th for the next model program subcommittee meeting. Enforcement issue how does enforcement access the hazardous? If it is on the list then where is the exposure?</p> <p>No decisions at this meeting.</p>	

Next Meeting

Wednesday, December 12th, 2012, 9:00AM to 12:00PM, Washington State Pharmacy Association Office, 411 Williams Ave South, Renton, WA 98057-2748
