# Safety Topic

# Overview of Preliminary Draft Rules

# Rulemaking Scoping Questions

## Safety and Health

- Do you have specific recommendations on how security staffing levels should be determined based on the criteria in ESSB 6105, Section 1(5)?
  - How can “peak operating hours” be approximated?
- Are there current best practices in the industry for how security personnel staffing levels are determined?
- What has been your experience with security staffing in Washington State specifically?

# Rulemaking Scoping Questions (cont.)

## Labor Standards

- What type of earnings should be considered "amounts collected"?
- How should estimates for an 8-hour period of work be calculated?
- Are there specific examples of retaliatory adverse actions that should be listed?

# Thank you for joining us today!
